

**Antelope Valley College**  
**2014 Spring Welcome Back Day**  
**Friday, January 31, 2014**

**8:00 – 9:15**      **General Session, *Performing Arts Theater***

**7:45**              **Sign-In**

**8:00**              **Welcome, *Dr. Ed Beyer, Academic Senate President***

**8:00 – 8:15**      **Antelope Valley College Overview, *President Ed Knudson***

**8:15 – 9:15**      **Behavioral Intervention, *Dr. Erin Vines, Gary Roggenstein, Dr. Louis Lucero, Deputy Ray Murgatroyd***

The Antelope Valley College has established a Behavioral Intervention Team (BIT) and developed procedures that offer support and assistance to faculty and staff when interacting with students in crisis. The most serious crises are those that may cause injury to the individual or others; however, there are also behaviors that may become crisis because they seriously impair the quality of the learning environment. This presentation will address the variety of behaviors that may lead to a crisis and what faculty can do to protect themselves, others and the learning environment.

**9:30 – 10:45**      **Session I**

**A. Strategic Institutional Assessment, Who, What, When, Where, Why, *Dr. Ed Beyer, Dr. Meeta Goel - LH100***

What is CCSSE and how do we use it? What is CCLA and how do we use it? Join Dr. Meeta Goel and Dr. Ed Beyer in a discussion about strategic assessment at Antelope Valley College.

**B. Three Segments of the Contract You Should Memorize, *Dr. Susan Lowry - LH102***

This workshop will deal specifically with three of the most often abused, misunderstood and important sections of the contract:

- Faculty Assignments as it relates to part time and overload scheduling
- Benefits
- Evaluations

Each of these sections is crucial to your life at the college on a daily basis. If you do not know these sections, you are liable to make mistakes in your own decision-making processes and behaviors, and you are likely to miss mistakes made by others whose actions have an enormous effect on your professional life.

**C. Campus Digital Services, *Greg Krynen - HS103***

AVC offers instructors, students and staff a wide array of digital services to help them obtain information, generate reports, ask for help and enjoy their off work hours. Come take a tour of the many services offered electronically via our websites.

**11:00 -- 12:15**      **Session II**

**A. Strategic Institutional Assessment, Who, What, When, Where, Why, *Dr. Ed Beyer, Dr. Meeta Goel - LH100***

What is CCSSE and how do we use it? What is CCLA and how do we use it? Join Dr. Meeta Goel and Dr. Ed Beyer in a discussion about strategic assessment at Antelope Valley College.

**B. Three Segments of the Contract You Should Memorize, *Dr. Susan Lowry - LH102***

This workshop will deal specifically with three of the most often abused, misunderstood and important sections of the contract:

- Faculty Assignments as it relates to part time and overload scheduling
- Benefits
- Evaluations

Each of these sections is crucial to your life at the college on a daily basis. If you do not know these sections, you are liable to make mistakes in your own decision-making processes and behaviors, and you are likely to miss mistakes made by others whose actions have an enormous effect on your professional life

**C. Student Success Act of 2012, *Ladonna Trimble, Dr. Erin Vines - HS103***

With the Student Success Act of 2012 in full swing, AVC is working hard to execute the delivery of the required services and educate students about their rights and responsibilities. A presentation on our progress, plans for the future and input from faculty is expected.

**12:20 – 1:30**      **Lunch – ON YOUR OWN**

**1:30 – 3:00**      **Session III**

**A. SLO/PLO Revisions and Updates, *Dr. Fredy Aviles, Outcomes Committee- see locations on reverse***

The SLO Committee now has a revision process in place for SLOs and PLOs. SLOs and PLOs will now be approved by the committee electronically via CurricUNET. This new electronic process is designed to make things easier for both the faculty and the committee. Come and find out how easy it really is and how it is all supposed to work (and why we still need WEAVE). Other important updates will be presented. Faculty will also be given time to work in groups to facilitate planning.
